

GHI networks with leaders both in the United States and around the globe. All ministries are consistent with the GHI mission to assist leaders in the call to racial and ethnic reconciliation. Many amazing things have been accomplished this past year and we would like to share with you and celebrate some of God's blessings through a few ministries GHI supports.

## Cameroon | Cameroon Leadership

Dr. Amos Nchouji is a Bethel Seminary Graduate with a Dr. of Ministry degree from Western Theological Seminary and is currently teaching at Cameroon Baptist Theological Seminary. Dr. Amos is also leading an evangelistic outreach to villages in North East Cameroon among people of various religions. Our project is helping to support the pastors who graduated from CBTS and those who are struggling to launch an evangelistic outreach of reconciliation and also establish a church there. **They are helping a recent CBTS graduate to rebuild his house after a fire.** We sent them the funds to roof the building and to support the pastor.

## Cameroon | Gabriel Massa

We have assisted Gabriel Massa toward the completion of his Ph D. in Missions at Concordia Theological Seminary in Fort Wayne, Indiana. We have assisted with funds for travel to Cameroon for his research on culturally appropriate pastoral care and mission work for Cameroon cultures which is necessary for his Ph D. His thesis project is due for completion in early 2009 so that he can return to teach at Cameroon Baptist Theological Seminary. **We are attempting to find funds to send his books and other materials back to Cameroon.**

## Cameroon | Philemon Nfor

He has been a professor at Cameroon Baptist Theological Seminary and expects to return to teach as time goes on. Right now he is leading a church in the capital city through a growth process. **He would like to have some additional time next year in the USA to study selected churches** in our area which have shown the ability to solve problems in managing the kind of rapid growth he is experiencing.

## Colombia | Amy Hedstrand

Amy enjoyed another successful year of teaching English and sharing the love of God to the students of Children's Vision's Beginning of Wisdom School. The students come from high risk situations and the school strives to provide them with quality education. She was blessed with spontaneous one-on-one interactions with the children to pray, counsel and challenge them. **In 2009 the school will be moving to a new facility which will bring new challenges.**

## Croatia | Mihal Kreko

**One of our biggest challenges has been paying off the loan for the land for Mosaic 21.** This is a community center with an Evangelical church at the core that we hope to build for children, youth and families in New Zagreb. There are less than 100 Evangelical believers in that entire area. The Lord moved six families in our church to give a total of \$24,000 to help pay off our property loan. A local man gave us \$5,000 recently and a ministry here in Croatia sold some property and sent us \$50,000. Praise the Lord!

## Croatia | Samobor Mission

In addition to our regular ministries (Children English Club, the Women Counseling meetings, Home Bible Groups, Gipsy and Prison ministry, Prayer meetings, and devotionals), we were able to give a helping hand to the lonely and needy. These are people who suffer privations living in villages dispersed in hilly places around the Samobor greater area. Our Lord provided opportunity for us to buy food, blankets, socks, and other most necessary items for **twenty-four of the poorest and needy inhabitants.** We pray that they may commit their lives fully to our Savior Jesus Christ.

## Dominican Republic | Dia Vivo School of Art

As we write, Professor Dale Johnson is leading art classes and demonstration painting at the freshly painted school building. Another group of Bethel students are there to learn and teach. We are planning a **joint project between Dia Vivo and Initiatives International** to provide more frequent and structured visits.

## Ghana | Ebow Paitoo

This has been another year of showing the Jesus film and preaching outdoors in villages outside the capital of Ghana, Accra. We have helped provide the projecting & P.A. equipment, and costs of travel to rural villages. **Thousands have watched the film, and hundreds have professed belief in Christ.**

## Ghana | Ghana Leadership Development

This project supports the work of Dr. Thomas Oduro who is the West Africa director for the OAIC, the Organization of African Instituted Churches. The organization exists to **assist some of the fastest growing churches in the world** and our joint goal is to help them to develop and become more biblical in every way. We assisted Dr. Oduro to travel locally in Ghana to hold revivals, assist in the writing of a Sunday School Manual for a denomination, encourage local church leaders, and to lead seminars in Nigeria for OAIC church leaders. He completed and published a biography of Solomon Owusu Krow ([www.dacb.org](http://www.dacb.org)) and he supervised the publication by two other emerging scholars. He also published chapters in three other books.

## Ghana | GNTCS

A big accomplishment for Good News Theological College and Seminary in 2008 was to receive accreditation from the Ghana government. **This is a huge step forward for the school.** We also assisted with the expansion of the school's library. Dr. Oduro visited the USA where he spoke in Dr. Klem's class at Bethel University and in Dr. King's class at Fuller SWM and negotiated potential affiliation with several universities in the USA.

## Ghana | Indigenous Women's Ministry

Esther had a busy year leading bible studies, speaking at leadership conferences, and continuing her teaching commitment at the Seminary. The women's bible study was held throughout the year, twice a month with an average of 30 participants. Most of the women have not had the opportunity to receive education and are illiterate, so **we are focusing on literacy and vocational training alongside the bible study to empower these women.** There is a big need for training women leaders to start more bible study groups.

## Mexico | Adulam Ministries *New to GHI*

2008 was a year of great accomplishments for Adulam Ministries. We were able to finish our part in the construction of a ministry center in the mountains of Chihuahua in the spring, leaving us more time to concentrate on building improvements for the rehab center. Two of our leaders have begun studying in a local Bible institute and have already begun using what they are learning as they teach daily devotionals at the center. As we look forward now to our Christmas mission trip to Tijuana, **we are thankful for God's faithfulness over this past year as our ministry continues to grow.**

## Nigeria | GCDA

Grace Community Development Agency was able to complete **11 wells and 4 washrooms in 2008.** A large portion of this was made possible through partnership with Lifewater Canada. We were also blessed with a \$100,000 donation to purchase a much needed new drill rig. With an ongoing drought and recent religious tension in the region, GCDA's work is evermore meaningful and touching many lives.

## Poland | Clown Ministries

## Uganda | Mission: Moving Mountains

Both Professor David Muhovich, from Bethel University, and his wife Nan from North Central University have been able to visit San Soita in Mbale and have had students participate. As these young people have influenced Uganda, **they too have been changed** and are bringing new life into this ministry.

## United States | Mission to Minnesota

2008 has been a year of restoration for those who have participated in our ministry. Marriages and family relationships have been brought under the Lordship of Christ and have been strengthened and given new focus. **We see this restoration now bearing fruit** as we are able to look outward in ways that our hurts had prevented us from doing.

## Global | Designed to be Pillars

It has been a rewarding year with two books published, meetings in several countries, and media exposure through television, with ensuing invitations. Through the ministry, **many have responded to God's call to know their gifts and be active participants in His Kingdom** after hearing the teaching and preaching. Future goals include: extending visibility, a publication of the two books in Spanish, and a more developed website.

## Global | Initiatives International

Initiatives International took 442 team members to serve in Chihuahua, Mexico; Monterrey, Mexico and Guatemala in 2008. Here are just a few of the successes from the trips: lives changed on both sides of the border, needed improvements to ministry facilities, relationships built, walls that divided us taken down, ministries and churches encouraged, and more than \$75,000 was donated directly to the international ministry partners for project materials! We are excited about teams in 2009 that **will be going to Nigeria, Germany and the Philippines in addition to Mexico & Guatemala.**

## Global | Emmaus Associates *New to GHI*

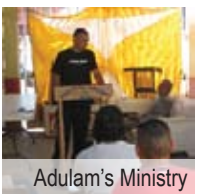

Paul Ameson has formed this ministry to walk alongside emerging leaders who are intent on seeking mentoring, training and personal coaching as they lead and transition in ministry. Currently, **EA is working with development workers in Cambodia as they implement community development strategies.** Also, there are missionaries, long term and short term, who are preparing to serve overseas and others who are being equipped in their transition through EA.
